Web Subscription Read the Web browser extension

Item for Read the Web browser extension

1.

**Create and extract highlights on a web page**

The Read the Web browser extension has a new 'Highlight text on this web page' button.
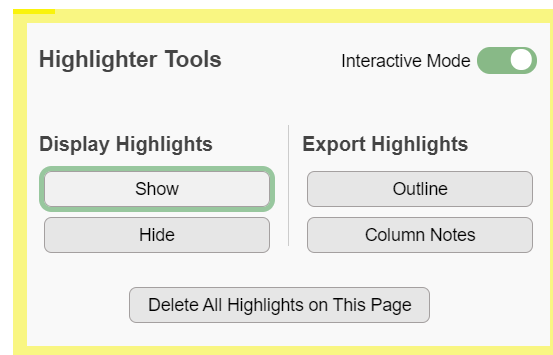

Clicking on the button opens Highlight menu.

This tool has 2 operating modes. **Default** and **Interactive**.
Default	Interactive

Common Functions:
Display Highlights:

|	
Show	Activates the Highlighter Buttons
	Shows highlights made on this page during previous and the current page viewings.
Hide	Disable Highlight Mode and hide highlights. Does not delete any highlights made on that page.
Delete All Highlights on This Page	Removes all highlights on that web page.

Creating Highlights:

Interactive Mode:

To activate the interactive mode, click on the switch so that it is green.
Interactive Mode [green toggle]

1. The cursor becomes a gray marker. Use this cursor to select the area you want to highlight.
2. Once the selection is made a small popup will appear with the 4 highlight colors.
3. Move the cursor over the desired color and single click. The highlight will appear, and the popup will close.

River drainage and one site was along the Sa
banded: Black-chinned, Anna's, Broad-billed,

Delete Highlights:

Hover over a highlight until you see an boxed X, in the top right corner. Click on this to delete it.

new federal revenue, create up to

Default Mode:

1. In Default Mode you select the color you want to use by clicking on the color desired.

2. Then use the marker cursor to click and drag over the desired text. transportation, technology

Additional Functions (These show in default mode.)

Remove an entire highlight. Simply select the eraser and click on the desired highlight.

Remove the highlights in reverse order. It will not undo an erasing.

Change the cursor to a pointer and leave the highlights showing, making it easier to use other functions.
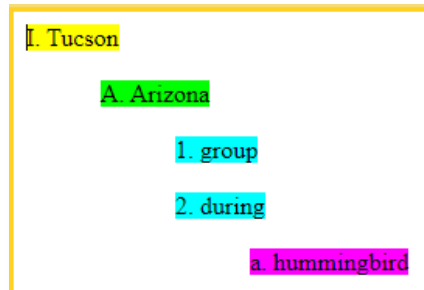

Key Board Shortcuts

Alt + Shift + L - toggles between cursor pointer and last function / color selected in the highlighter tool.

Export Highlights

Susan M. Wethington* and Stephen M. Russell Dept, of Ecology and Evolutionary Biology University of Arizona Tucson, Arizona 85721 ABSTRACT As a group project during the 1997 hummingbird banders' conference in southeastern Arizona, participants banded

Outline   Extract all highlights on that web page with indentations following the color order into kurzweil3000.com.

I. Tucson

    A. Arizona

        1. group

        2. during

            a. hummingbird

Column Notes   Extract all highlights on that web page into Column Notes.

Yellow in the first column – Main Ideas.
Green in the 2nd column – Supporting Ideas.
Blue in the 3rd column - Other.
      Note: Each group of consecutive blue highlights appear in one box.

Main Ideas	Supporting Ideas	Other
Tucson	Arizona	- group - during
hummingbird		

Using only yellow, green, and blue keeps column notes very simple.

If **Purple** is used it will be placed in the 1st - Main Ideas column as shown with the word hummingbird.
